

## Report on Doctor's Day July 1, 2021

The Internal Quality Assurance Cell of Loreto College celebrated **Doctor's Day** on July 1, 2021. This was a humble effort to acknowledge the contributions of doctor's humane service to mankind. In these challenging times, doctors are at the forefront and leading the battle. Their commitment to keeping the nation safe and healthy is truly exceptional.

This day is dedicated to the birth anniversary of the great doctor and statesman of the country, Dr B.C. Roy. We are all grateful for the contribution of doctors during the Corona period. Our doctors have served us without concern for their lives and hence the theme this year is '**Save The Saviours**'. The programme commenced by observing a minutes' silence in order to acknowledge the services and lives of those doctors who succumbed to COVID-19.

Dr. Juhi Neogi was the Resource person, who has been actively involved in the treatment of COVID19 patients in Beliaghata ID Hospital, Kolkata and is attached to National Medical College & Hospital and is associated as a resident in Critical Care Unit, The Calcutta Medical Research Institute, Kolkata. Dr. Neogi discussed the signs and symptoms of Covid 19 as well as post- Covid complications. She provided a vivid comparison of the various vaccines and stressed that vaccines would ensure a protective shield against the virus. The deliberations were enriching and were followed by an interaction between Dr. Neogi and the students.
