

**Loreto College, Kolkata**  
**Department of Geography**  
**Exploring Geography:**  
**Academic Orientation through Exposure, Experience, & Alumnae Engagement**  
**IQAC Initiative**  
**November 13, 2024**

The Department of Geography, Loreto College, Kolkata organized **Exploring Geography: Academic Orientation through Exposure, Experience, & Alumnae Engagement** in collaboration with the Internal Quality Assurance Cell on November 13, 2024.

The Academic Orientation of the Department has been a tradition over the last three decades. The Orientation programme began with the presentation of a documentary by the third-year students on the learnings of their field trip to Aizawl, Mizoram. Field trips have traditionally been important to geographers. The students put forward a comprehensive presentation of the study area highlighting their activities. Socio-economic survey of the households was conducted at the Tanhril Village, a rural center in the outskirts of Aizawl, where scholars from Mizoram University guided the students. An interactive session was organized by the Departments of Geography and Geology of the Mizoram University, where the students were enriched on the aspects of palaeomagnetism, weathering and landslides. Prismatic compass and Abney level surveys were conducted in Tanhril Village. A fluvial survey along River Tlawng, the longest river of Mizoram was conducted by the students.

The objectives and methodology involving the pre-field, field, and post-field experiences were addressed and presented through a documentary, which acted as a source of encouragement and enthusiasm for both the first and second years.

The resource person for the session on Alumnae Engagement titled **Climate change and the role of youth in shaping our future** was Sayanti Sengupta, Technical consultant, UNICEF/FAO/Red Cross, Germany.

### Learning Objectives

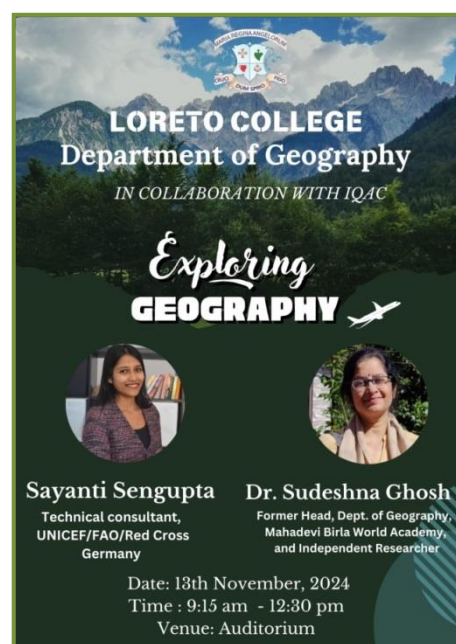

- Introduce the fundamental concepts of climate change
- Explore the current state of global climate discussions
- Introduce practical steps to reduce their carbon footprints

### Learning Outcomes

At the end of the Interactive session the participants were able to:

- Understand the fundamental concepts of climate change
- Comprehend the current state of global climate discussions, including initiatives like the Paris Agreement, the United Nations Climate Change Conferences (COP), and the sustainable development goals (SDGs).
- Understand that youth are not just passive victims of climate change, but essential players in shaping a sustainable future

To make the session relatable, real-world case studies of climate action projects, including examples from India, were employed. Interactive elements like using a Mentimeter to quiz students on climate facts made the session engaging and informative.

The resource person for the Second Lecture titled ***East Kolkata Wetlands: A Living Heritage – Internationally acclaimed locally unknown*** was Dr. Sudeshna Ghosh, Former Head, Department of Geography, Mahadevi Birla World Academy and an independent researcher.

### Learning Objectives

- To identify the various components of the ecosystem (natural and man-made) and recognise the traditional practices adopted by the locals
- Explore the landscape and how it has been transformed by the community
- To shed light on the functioning of the wetlands as a wastewater treatment plant
- To identify the threats adversely affecting the wetlands

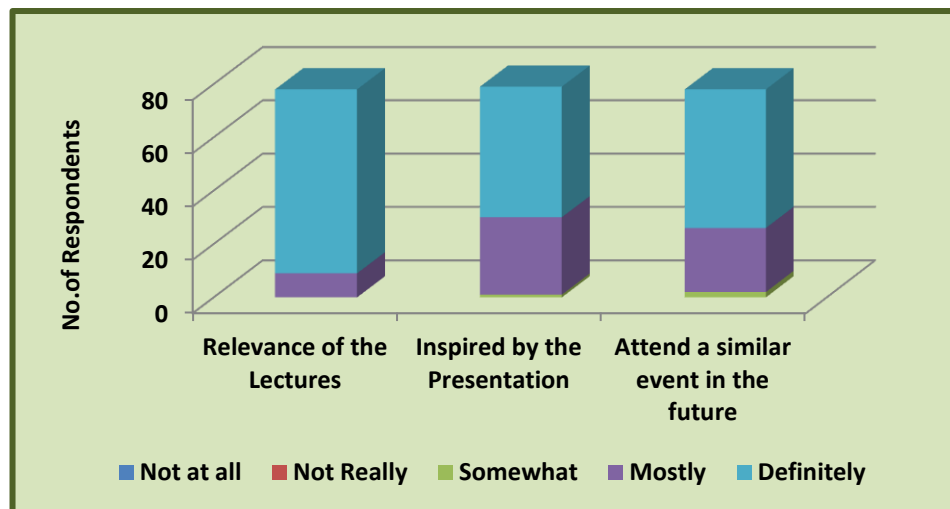

### Learning Outcomes

At the end of the session the participants were able to:

- Understand the dynamics of conducting fieldwork
- Comprehend the functioning of this unique wetland ecosystem
- Understand why is Kolkata called ‘an ecologically subsidized city’, with respect to wastewater treatment
- Identify the threats affecting the wetlands and realize how the wetland landscape is changing in recent times

## FEEDBACK

Total Participants – 82  
Total Respondents – 78

Department of Geography  
**Study Tour: Experiential Learning at Solar Dome Museum**  
April 29, 2025

The Department of Geography, Loreto College, organized a **Study Tour: Experiential Learning at Solar Dome Museum** on April 29, 2025. Seventy-five students and four faculty members from the Department of Geography, Loreto College, visited the India's first Solar Dome Museum in Kolkata for an educational excursion aimed at promoting experiential learning beyond the classroom.

### Learning Objectives

- Deepen students' understanding of sustainable energy practices and solar technology
- Reinforce academic learning with practical experience

### Learning Outcomes

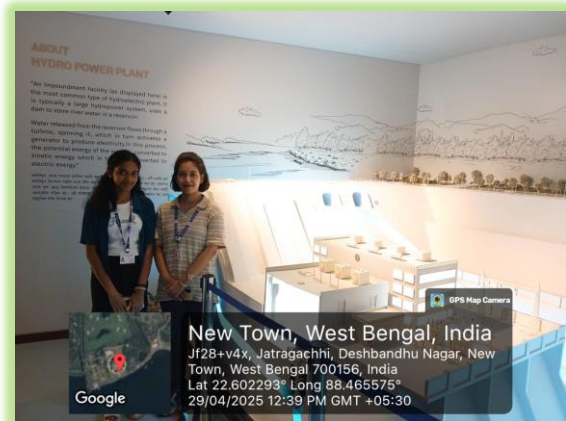

*At the end of the session the participants were able to:*

- Engage directly with renewable energy solutions and climate-related topics
- Think critically about global environmental challenges and the role of geographers in fostering sustainable development
- Gain hands-on experience, that complemented the objectives of the Resource Geography course, which emphasize on analyzing resource depletion—particularly of forests, water, and fossil fuels—and promotes an understanding of sustainable resource development
- Effectively address the Sustainable Development Goal (SDG) 7, which advocates for affordable, reliable, and sustainable energy for all

During the visit, students explored interactive exhibits, installations and simulations that demonstrated key concepts such as the greenhouse effect, climate change, energy conservation, and carbon footprint reduction strategies, reinforcing their academic learning with practical experience. The museum also featured displays on solar architecture, allowing students to appreciate the role of design in sustainable urban planning.

This outcome based learning successfully bridged theoretical knowledge with real-world application, making the learning experience both impactful and memorable.

**Loreto College, Kolkata Department of Geography**  
**In Collaboration with Department of Geography, Rani Birla Girls' College**  
**State Level Workshop**

***Cyber Security: Addressing Online Threats and Government Initiatives from a Gender Perspective***  
**May 10, 2025**

## INTRODUCTION

The Department of Geography of Loreto College in collaboration with the Department of Geography of Rani Birla Girls' College organized an impactful **State - Level Workshop on Cyber Security: Addressing Online Threats and Government Initiatives from a Gender Perspective** with Hands-on Training on Personal Mobile Security and Data Protection on May 10, 2025 an online mode. The session was conducted by Dr. Bitan Misra, Assistant Professor, Department of Computer Science and Engineering, Techno International, Kolkata. 42 Students from six colleges across the state have attended the workshop. The session was designed to enhance participants' understanding of cyber security principles and to raise awareness about the growing risks in the digital world. It aimed to equip students and professionals with essential knowledge of cyber threats.

## Learning Objectives

- ✚ Recognize practical strategies to prevent cyber threats, such as phishing, malware, and identity theft
- ✚ Understand the importance of safeguarding personal and professional data in today's digital age.
- ✚ Comprehend the need for strong passwords, regular software updates, and cautious online behavior.

## WORKSHOP FORMAT

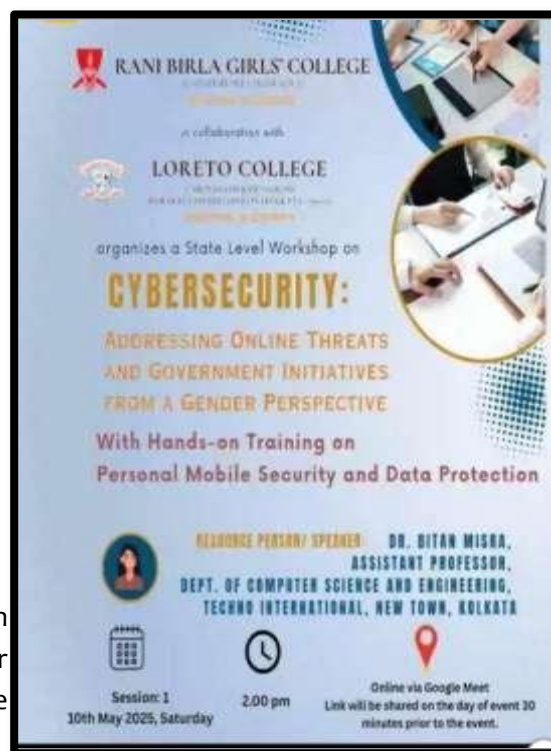

The workshop had two structured sessions:

The following agenda and activities were undertaken during the workshop:

**1. Introduction to the topic (Session 1)** - our resource person gave us a clear perspective of the definitions of Cyber Security and Digital Security and also the difference between Cyber Security and Digital Security

**2. Session 2: - Threats in Digital World and a Hands-on Session on how to avoid them -**

The ongoing threats and scams faced by people were explained at length by the resource person. She also gave us some real-life examples of some scams then she proceeded with hands-on session where she taught us some tricks to avoid sharing confidential information unknowingly to the hands of the hackers (Using Camera, LinkedIn and Gmail)

An interactive session at the end of the workshop where students and teachers shared their stories of facing cyber security related problems and asked questions about them

### Learning Outcomes

At the end of the Workshop the participants were able to:

- ✚ Recognize practical strategies to prevent cyber threats, such as phishing, malware, and identity theft
- ✚ Understand the importance of safeguarding personal and professional data in today's digital age.
- ✚ Comprehend the need for strong passwords,

regular software updates, and cautious online behavior.

Overall, the workshop enhanced awareness and equipped attendees with essential skills to maintain cyber security in their daily lives.

### IMPACT AND FEEDBACK

The workshop made a strong impact by raising awareness of key cyber security issues and motivating participants to adopt safer online practices. Feedback was overwhelmingly positive, with attendees appreciating the practical sessions, expert insights, and interactive activities that made complex topics easy to understand and apply.

### CONCLUSION

The State Level Workshop on *Cyber Security: Addressing Online Threats and Government Initiatives from a Gender Perspective* successfully attained the objectives of educating and empowering attendees with essential cyber security knowledge. It reinforced the importance of staying vigilant in the digital world and highlighted the need for continuous learning to adapt to evolving cyber threats.

**Feedback of State Level Workshop - Cyber Security: Addressing Online Threats and Government Initiatives from a Gender Perspective**  
May 10, 2025
