PSYCHOLOGY — HONOURS

Paper : SEC-3

(Behaviour Modification)

Full Marks : 75

The figures in the margin indicate full marks.

Candidates are required to give their answers in their own words
as far as practicable.

1. Write in short on *any five* from the following (word limit 250 each) : 5×5

    (a) Explain the ABC's of behaviour.

    (b) Goals of Behaviour Modification.

    (c) Difference between Negative Reinforcement and Punishment.

    (d) Token Economy.

    (e) Explain stimulus control with an example.

    (f) Premack Principle.

    (g) Spontaneous Recovery of Learning.

    (h) Successive Approximation.

2. Answer *any two* questions from the following (word limit 700 each) :

    (a) What is Behaviour Modification? Briefly discuss about the Basic Principles of Behaviour Modification. 2+8

    (b) What is Reinforcement? Describe the schedules of Reinforcement. 2+8

    (c) Write about the Behaviour Modification Techniques used at home. 10

    (d) Define Functional Assessment. Describe the various methods used to conduct Functional Assessment. 3+7

    (e) When shaping can be used? Explain with an example the steps involved in shaping. 2+8

3. Answer *any two* questions from the following (word limit 1000 each) :

    (a) Define Assessment. What are the needs for Assessment in Behaviour Modification? 3+12

    (b) What is Classical Conditioning? Delineate the major principles of classical conditioning theory of learning. 3+12

    (c) Define Contingency Management. Discuss with example the applications of Contingency Management Techniques in workplace. 5+10

Please Turn Over

(1670)

(d) Differentiate between Functional Analysis and Functional Assessment. What are the necessary components of token economy? 5+10

(e) Define Premack Principle. How it is applied in behaviour modification? 3+12
